Non Formal Basic Education Schools a joint project of PPC and SYF.

As the elimination of poverty and illiteracy is the main objective of Swat Youth Front (SYF) Swat. In order to achieve the desired objectives SYF established 63 non formal basic education schools in collaboration with Federal Ministry of Education Islamabad in various villages of District Swat. Need assessment was conducted and sites were selected. Learners were identified and teachers were selected for schools. The teachers were trained in teaching techniques. Students were enrolled in the same schools and the project was started on 1st June, 1999. Side by side education committees were formed in each community in order to manage the schools at local level. Under this project books were provided free of cost to the students by the education ministry while Swat Youth Front is responsible for monitoring and supervision. Spaces for classes were provided by the inhabitants of the concern community.

Due to close and deep collaboration of three partners i.e Ministry of Education (Education for All Wing), Swat Youth Front and Community, the schools were operated very successfully.

The drop out ratio is very low as compare to other government schools. Swat Youth Front is providing food items time to time to 500 students of the schools under health and nutrition programme with financial assistance of Catholic Relief Services (CRS) Pakistan/Afghanistan.

Out door activities are also the main component of the schools. Celebration of national and international days and debates competitions were also conducted during every educational year.

Recently there are 2795 students including 586 male and 2209 female, while 541 students appears in the 5th Class examination out of which 503 students were qualify the examination. The examination was conducted by the District Education Department Swat by the order of Federal Ministry of Education. This primary education level was completed in a period of 45 months. 212 students of them have been admitted in Govt. schools for middle and high level education. All of them are supported by Swat Youth Front. The main sources of finances for these students are local donors, community contribution and SYF's other resources. Non Formal Education system is the easy and low cost system of providing education the poor as the total cost per student is Rs. 6000/- for the completion of primary level education. This is the only system and opportunities which enables those students who remains or have left education to in formal schools due to any reason and this system is

ideal for females as well. In all circular and extra circular activities, the Provincial Project Coordination (PPC) Office Peshawar extended its extreme cooperation to make these activities progressive and successful.

We acknowledge and appreciate the efforts and struggles of the PPC office Staff, which enable us to promote education in the hilly and remote area.
